

Wet Pour Rubber Flooring

WETPOUR RUBBER FLOORING is a heavy duty product that has been specifically developed for livestock applications. It offers a seamless, durable, moisture proof and hardwearing surface that is slip resistant, easy to maintain, comfortable for horses and suitable for most livestock including cattle. Surfacing applications such as trucks, horse floats, horse walkers, stable floors, wash bays.

Our Wetpour Rubber flooring product is supplied and installed by our own professional installers. If the base is steel it will need to be sandblasted prior to application at an additional cost by an off-site contractor.

<10m² = \$170/m²

>10m² = \$150/m²

Horse Walkers = Price on application
